Photographs and Videos

In the case of photo and video images, we are unable to use these for Newsletters, press releases etc. unless we have your consent to do so. We assure you that we take very seriously the issue of potential misuse of photographs and videos of our pupils, and have the following measures in place:

- Ensuring pupils are dressed appropriately when photographed
- Ensuring images and videos are stored securely by Nether Stowe School

Nether Stowe School may provide photographs and videos to the media, or Nether Stowe School may be visited by the media who will take videos and photographs. When these have been submitted to, or taken by the media Nether Stowe School has no control over these.

You are completely free to refuse to provide your consent to any of these things. You do not have to provide reasons for refusing your consent, but we are happy for you to give us additional information if you choose to so that we understand any concerns that you have and can take appropriate steps where necessary.

Celebrating your Achievements and Reporting on Events

At Nether Stowe School we are very proud of the achievements of all of our pupils and we want to be able to celebrate these achievements both within the School, Trust and with others. We may also want to report on significant events which involve our pupils, such as visits from dignitaries. This will involve providing information about involvement in certain activities such as sports.

Occasionally we use students' photographs or video images for school or curriculum purposes, this includes displays, promoting a positive image of the school, newsletters, press releases, social media etc.	Photo/Video Consent YES <input type="checkbox"/> NO <input type="checkbox"/>

This consent will otherwise continue until your child leaves Nether Stowe School. Nether Stowe School is required to reaffirm consent at appropriate points, including when a child reaches a point at which they are considered to be able to consent on their own behalf.

Biometric Recognition

Nether Stowe School has a system for paying for meals which uses fingerprint recognition. The system works by biometrics. The fingerprint of the pupil is stored via encryption and is held for the period of time that the student attends school.
