6<sup>th</sup> November, 2019

Dear Parent/Carer,

## Launch of *NESTA*

In the Nether Stowe Science Department, we pride ourselves on the range of extra-curricular activities we provide for our students, be it visits by outside agencies, or taking students on excursions out of the School environment.

To this end, we are excited to announce the launch of **NESTA**, (Nether Stowe Astronomy). This is a project designed to engage young students, through the medium of Astronomy, with the Science that surrounds them. This letter is simply to gauge how many students would be willing to offer 45 minutes, every two weeks, to be part of this.

This project will run for the whole academic year, and I would hope, and expect, students who sign up, to attend all classes. When I have approximate numbers, I will send out a plan for the classes. I am hoping that we can use Thursdays, after School, as our class day, although this will occasionally have to be changed because of calendared School events

Please note that numbers are limited, so a quick response is required, to gain a place.

I look forward to hearing from you,

**Mr W Dransfield-Scott**

**Physics Department**

---

Please return this reply slip to Mr Dransfield-Scott by Friday 08<sup>th</sup> November to register interest in this opportunity.
