

Nether Stowe School

Be Respectful. Be Ambitious. Be Resilient.

27th June 2024

Dear Parents/Carers

REF: Stowe Pool – Water Safety

It has come to our attention that students within the local community from Nether Stowe and surrounding schools have been using an inflatable dinghy and air beds on Stowe Pool yesterday evening.

The inflatables were left overnight unattended. Several students from Nether Stowe School discovered them this morning. Staff were alerted by the public that students were attempting to use the inflatables before coming into school. We can assure you that these inflatables have now been removed by staff and destroyed to ensure student safety.

We have spoken to all our students today about the incident and advised them of the dangers of Stowe Pool. Please can you ensure that you speak to your child/children to re-iterate the importance of water safety and not to access the pool or any objects/equipment found within the area.

Surrounding schools have also been notified.

Kind regards,

**Senior Leadership Team
Nether Stowe School**
